Medical/Surgical Assessment and Management

Referral of your patients for **assessment and management** of their spinal problems should be made directly to Caleo Health. Each patient is assessed by our triage team and the best treatment pathway is determined. If your patient is deemed a **surgical candidate** he/she will see a spine surgeon in an **expedited** fashion.

The assessment and management of your patients' spinal problems by our triage team is only partially covered by Alberta Health and Wellness.

*** Please do not refer ACTIVE WCB-Alberta patients to our clinic. The referral must go directly to WCB**
